SUMMARY

Product Manager with 6+ years of experience delivering high-impact **AI, Enterprise SaaS, Retail Technology, and D2C Commerce** products. Proven track record in product discovery, user research, strategic roadmap development, experimentation, analytics, and leading cross-functional teams. Successfully launched and scaled products for enterprises and startups, with deep expertise in AI Product Management, including **LLMs, AI Agents, Prompt Engineering, and AI workflow automation**.

PRODUCT IMPACT

- Scaled a **D2C commerce** platform to **3x order volume**, **cut customer acquisition cost by 50%**, and drove **18% repeat purchases** by leading customer research, experimentation, and iterative product enhancements.
- Launched a **Rules-based automotive support chatbot** and engagement automation, boosting customer self-service and increasing purchase recovery for Advance Auto Parts.
- Delivered enterprise retail technology adopted by top-tier enterprise retailers, contributing to **8% business growth** and improving analytics reporting speed by 25%.

SKILLS

Product Management: Product Strategy, Product Discovery, User Research, Customer interviews, Roadmapping, Feature Prioritization, Product Analytics, Customer Journey Mapping, Experimentation Design, A/B Testing, Product Requirements (PRDs)

AI Product Management: LLM Applications, AI Agents, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Evaluation Methods, Workflow Automation

Analytics: PostgreSQL, Shopify Analytics, Amplitude, Power BI, Grafana, Funnel Analysis, KPI Modeling

Tools: Jira, Confluence, Figma, API Integration, Python, n8n, Claude, Replit

WORK EXPERIENCE

Product Manager (Co-Founder)
Sanskriti Fab

July 2024 – March 2026
Gurugram, IN

- Owned **product lifecycle** for a Shopify-based D2C platform, overseeing discovery, roadmap, experimentation, and optimization, impacting **3x order growth and 18% repeat purchase rate**.
- Drove customer research by structuring interviews and analyzing analytics, identifying pain points across acquisition and retention, and translating findings into 8+ prioritized roadmap initiatives.
- Coordinated cross-functional teams to execute rapid product experiments, achieving a **50% reduction in acquisition cost** and accelerating feature delivery cycles.
- Prioritized third-party integrations, balancing implementation effort and customer value, enabling scalable analytics and marketing automation infrastructure.
- Made a **strategic decision to sunset the venture** after comprehensive review of unit economics, acquisition efficiency, and capital needs, demonstrating disciplined product judgment.

Product Owner
Advance Auto Parts

November 2022 – July 2024
Hyderabad, IN

- Directed delivery of AI-powered customer experience products, launching a **Rules-based automotive support chatbot and cart abandonment automation** that improved self-service and elevated purchase recovery rates.
- Structured and **prioritized product backlog using RICE framework**, aligning initiatives with user needs and business outcomes to enhance customer satisfaction metrics.
- Defined user stories and acceptance criteria from stakeholder requirements, expediting engineering throughput and delivering 5+ new features in 10 months.
- Partnered with Support and Analytics teams to pinpoint high-impact pain points, driving **AI-powered solutions adopted by 50% of support users**.

Product Owner | Project Manager
ReTech Labs Inc.

August 2020 – November 2022
Noida, IN

- Led product delivery for a Store Digitization platform, enabling real-time planogram visualization and retail analytics, contributing to **8% business growth** at enterprise clients.
- Defined feature roadmaps, workflows, and backlog priorities spanning web, mobile, and dashboard products, coordinating execution with engineering and design.
- Partnered with engineering to optimize AWS and Grafana infrastructure, **reducing dashboard latency by 25%** and improving user experience for analytics customers.

- Leveraged SQL, Power BI, and usage analytics to uncover user patterns, supporting data-driven decision making for new feature adoption.

Data Analyst | Business Analyst
ReTech Labs Inc.

May 2020 – August 2020
Noida, IN

- Developed analytics dashboards and automated reporting pipelines using SQL, Python, and Grafana, improving operational visibility across product teams.
- Used **market research and product analytics** to identify customer usage patterns and inform product priorities and feature enhancements across multiple releases.
- Produced **wireframes, user personas, and BRDs** to support product discovery, accelerating feature design and stakeholder validation cycles.

MIS Executive/ Analyst
EON Electric Ltd.

September 2018 – June 2019
Noida, IN

- Designed and launched operational reporting dashboards for executive leadership, accelerating decision cycles by 30%.
- Developed data-driven infographic presentations, equipping leadership with actionable insights that shaped quarterly product roadmaps.
